ABSTRACT

This venture, titled “E-Agriculture for Direct Marketing of Food Crops Using Chatbot,(DMCF CHATBOT)” is created with PHP as the front end and MySQL as the back end. The reason of this venture is to construct a offering handle, making a stage where bidders and dealers can come together to exchange different things. The framework shows the time cleared out to offered and the number of offers. It comprises of a web entry where enlisted clients can propose modern biddings, put offers, send messages to other clients, and get programmed overhauls through E-MAIL when they get modern offers, when a offering is over, etc. The online offering venture holds biddings of different items on a site, serving venders and bidders in like manner. It permits clients to set up their items for offering and bidders to enlist and offered for different items accessible for bidding.

ACKNOWLEDGEMENT

It is a great privilege and pleasure to express my deep sense of gratitude to our beloved Secretary **Dr. C. Ramaswamy M.E., Ph.D., F.I.V.** for his encouragement kind patronage and facilities offered.

I owe my profound thanks to our Principal **Dr. M. Ashok B.Sc. B.Tech., M.E., Ph.D.** who guides us, throughout the year and all these days during the project work.

I also thank **Mrs. A. Nalini M.E.,** Head of the Department of Computer Engineering and project coordinator for her kind support and providing necessary facilities to carry out the work.

I would like to express my sincere thanks and deep sense of gratitude to our guide **Mrs. BENAZIR BEGAM S. B.E,** Department of Computer Engineering for his valuable guidance for the successful completion of the project.

I whole heartily thank all the staff members of Department of Computer Engineering for providing necessary guidance and facilities to carry out the project.
